

Welcome to 6th Grade!

Congratulations on your final elementary year! I know God has brought you to this class and I am looking forward to getting to know each one of you. I know we are going to have a wonderful year together as we share in this journey of learning about God's awesome world. This is a year of many exciting changes. You will be growing, not only physically, but in maturity as you take on more responsibilities, in knowledge, and spiritually as you develop a personal relationship with your Creator. This will be my 12th year teaching at Orangewood and my 4th year teaching 6th grade. I love 6th grade and I know you will, too!
