

## Frequently Asked Questions

### **What is the Learning Achievement Program (LAP)?**

An educational resource for students who require additional assistance or educational modifications to succeed academically.

### **Who can enroll in the Learning Achievement Program?**

The LAP is open to students to meet at least one of the following criteria:

- Tests at intervention levels
- Qualifies for an IEP or 504 plan
- Recommendation from teacher
- On academic probation

### **What does the Learning Achievement Program offer?**

With 3 Levels of intervention, a Student Support Team will formulate an individualized plan for your child, with measurable goals and concrete strategies to reach them.

Level 1: LAP Homework Assistance

Level 2: LAP Tutoring

Level 3: LAP Teaching

## The First Step in the LAP process

If you believe your child qualifies for the Learning Achievement Program, speak with his or her teacher. The teacher will schedule a Student Support Team (SST) meeting, consisting of the parent/guardian, the teacher, the LAP Teacher, and our Curriculum Coach. Together, this team can make a comprehensive plan to address your child's needs, ultimately deciding together which level of intervention will benefit your child most.

## Supplemental Tuition:

Charges for the LAP intervention will be included with regular tuition statement. Below is an estimate of costs, but final arrangements will be made during the first SST meeting.

Level 1: LAP Homework Assistance	\$50/month
Level 2: LAP Tutoring (biweekly)	\$160/month
Level 3: LAP Teaching (daily)	\$300/month

### Level 1: LAP Homework Assistance

*3:30 pm to 5:00 pm Monday thru Thursday*

Designed for students in 1st-8th grade who need support in completing daily assignments, our LAP Homework Assistance offers after school sessions, 4 days a week. A qualified tutor will help students with homework in the LAP Classroom, which has computers for projects, online educational resources, and printing assignments.

Each day, the LAP tutor will help students prioritize and organize their homework, utilizing the planners and/or STAR folders provided by the school, facilitating communication between teachers and parents.

Since Homework Assistance is now part of LAP levels of intervention, a recommendation from a teacher and an SST is needed to enroll your child in LAP Homework Assistance. Follow-up SST meetings are recommended at the start of each Semester, and monthly email updates on your child's progress.

### Level 2: LAP Tutoring

*Scheduled on a individual basis*

LAP Tutoring is specifically for students who are at or near grade level, but require one-on-one support or additional instruction to keep up with current classwork. The LAP Coordinator will assign a qualified teacher or tutor, depending on subject, and schedule 2 weekly tutoring sessions before, during, or after school hours.

By coordinating tutoring through the Learning Achievement Program, we have opened up new resources and valuable tools to assist your child. Also, with regular SST meetings and monthly status reports, we keep the lines of communication open between parents, teachers, and administration.

The monthly rate includes a minimum of 8 sessions a month. If the SST determines that more (or less) than 2 weekly sessions are needed, a special price will be arranged at that time.

### Level 3: LAP Teaching

*Scheduled during school hours.*

LAP Teaching provides a modified curriculum option for circumstances when a student requires a higher level of academic intervention than Levels 1 & 2 provide. The LAP Teacher, with the help of our new Curriculum Coach, will devise a curriculum to appropriately challenge your child, focusing on progress and measurable goals.

During the qualifying subjects in your child's primary classroom, he or she will move to the LAP classroom for their instruction time. With a smaller class, your child will receive the individual attention he or she needs. LAP Teaching will include homework, quizzes, testing, and a final grade that will be reflected on your child's report card as a modified subject.

Currently, LAP Teaching offers modified curriculum in Math and Language/Reading classes, and only at the Elementary and Jr. High levels.
