

ORANGEWOOD ACADEMY

Hi Parents, Guardians, and Students:

Teachers save money and time for parents by purchasing items in bulk and help ensure that every student in the classroom has equal access to the correct materials necessary to excel in the class. When items need replacement, they can ask the teacher instead of having to wait for a trip to the store with a parent/guardian.

Please see the breakdown of course fees that will be used to purchase and provide materials for our high school students.
